

**Information on Dismantled Timber Planks at Nos. 74 and 74A
of Stone Nullah Lane at Blue House Cluster**

Amount of Timber Planks:	About 50 pieces of treads, 50 pieces of risers and 5 pieces of quarter-round lines
Size:	Treads: 910 mm x 240 mm Risers: 910 mm x 180 mm Quarter-round lines: 910 mm length
Conditions:	Most of the planks were found with cracks. For those planks that were previously infested with termites, there is no further sign of termite existence after treatment.
Proposed usage:	Applicants are welcome to come up with suggestions on possible uses of the timber planks. However, uses involving heavy loading are not recommended since cracks are found in the planks.
